Assignment-01 (EWYL)

Create a .NET Web API to add two numbers.

Requirement

API Method: GET

URL:

/api/add?a=10&b=20

Response

```
{
   "result": 30
}
```

Create a .NET Web API to add two numbers.
Requirement
API Method: GET
URL:
/api/add?a=10&b=20
Response
{
   "result": 30
}

Soluⁿ

AddController.cs

```csharp
using Microsoft.AspNetCore.Mvc;

namespace AddApi.Controllers
{
    [Route("api/[controller]")]
    [ApiController]
    public class AddController : ControllerBase
    {
        [HttpGet]
        public IActionResult Add(int a, int b)
        {
            int result = a + b;
            return Ok(new { result = result });
        }
    }
}
```

Output:
https://localhost:7132/api/add?a=10&b=44

https://localhost:7132/api/add?a=10&b=20
